## Super Sisters Sisterhood Society

---

The Super Sisters Sisterhood Society is a society of women who have formed a close sisterhood bond based on share experiences, solidarity and synergy. We are leaders who inspire, foster collaboration and turn our vision and strategies into action—with focused, clear goals.

**Our Mission:** to create a paradigm shift in the way women think, act, treat and respect one another. We do this by showing respect for each other and value all women for their diverse backgrounds, experience, styles, approaches and individual ideas. We provide a safe place for women to dream big and play hard in a supportive, nurturing, loving and caring environment.

The Super Sisters Sisterhood Society believe that the betterment of women is not a job to be left to a few; it is the responsibility to be shared by all. Therefore, we offer our time and talents to demonstrate a commitment to integrity and ethics to our beloved sisters that stop processes, procedures and activities that slow us down or do not add value. We strive to find solutions to problems rather than continue to make excuses or place blame for the causes and effects that has served as barriers for women to achieve their goals.
